Career Objectives

Professional **Full-Stack Web Developer (Laravel-focused)** with over **1.5 year of industry experience**, seeking a challenging role to design, develop, and maintain scalable web applications. Skilled in backend development, API integration, database design, and collaborative project workflows, with a strong commitment to clean code, performance, and continuous learning.

Professional Summary

- Full-Stack Developer with strong expertise in **Laravel and PHP (OOP)**
- **Over 1.5 year of professional experience** working on production-level applications
- Experienced in **RESTful API development, database design, and system maintenance**
- Strong problem-solving ability with a focus on secure and optimized server-side logic
- Comfortable working independently or in team-based, agile environments

Skills & Abilities

Language Proficiency

- Bangla (Native)
- English (Fluent)

Design (Supportive Skill)

- Adobe Photoshop, Illustrator
- Canva
- UI Graphics, Banners, Social Media Assets

Mobile & Additional Exposure

- Flutter (Basic – mobile app development)
- Android Studio (Basic – build, run, testing)
- React (Basic exposure)

Tools & Platforms

Git & GitHub, Postman, Android Studio (Basic – build, run, testing), Office 365

Backend (Core Strength)

- PHP (Object-Oriented Programming)
- MySQL, SQL
- RESTful APIs, JSON
- Authentication, Authorization, RBAC
- Query Optimization & System Maintenance

Frontend

- HTML5, CSS3
- Bootstrap
- JavaScript, jQuery, AJAX
- Blade Templating

Operating System

Windows.

Key Skills

- Laravel Full-Stack Development
- RESTful API Development & Integration
- Authentication & Role-Based Access Control
- Bug Fixing, Debugging & Application Maintenance
- Backend Development & MVC Architecture
- Database Design & Optimization (MySQL)
- Server-Side Security & Performance Optimization
- Git Version Control & Team Collaboration

Education

Master's Degree , Jahangirnagar University (JU) Subject: CSE	2026 – Present Savar, Dhaka
Bachelor's Degree , Daffodil International University (DIU) Subject: B.Sc. in CSE CGPA: 3.40	2020 – 2024 Dhaka, Bangladesh
Higher Secondary Certificate (HSC) , Chittagong Cantonment Public College Board: Chittagong, Subject: Science, Result: 3.58	2017 – 2018 Chittagong, Bangladesh
Secondary School Certificate (SSC) , Cantonment Board High School Board: Dhaka, Subject: Science, Result: 5.00	2016 – 2017 Ghatail, Tangail, Bangladesh

Professional Experience

Software Developer (Full-Stack) Innovation and Information System Limited (IISBD) - Developed and maintained Laravel-based web applications following MVC architecture - Designed and integrated RESTful APIs for internal and external system communication - Implemented authentication, authorization, and role-based access control - Fixed production-level bugs and improved system performance and security - Collaborated with frontend developers, QA teams, and project managers - Maintained databases and optimized queries to enhance application efficiency	02/2025 – Present Mohammadpur, Dhaka, Bangladesh

Projects

Construction Management System (Enterprise-Level)

A complete construction company management system capable of handling end-to-end operations.

Role: Full-Stack Laravel Developer

Technologies: Laravel, PHP (OOP), MySQL, RESTful APIs, jQuery, AJAX **Key Features:**

- Project, site, and contractor management
- Material requisition, purchase, and inventory tracking
- Employee, labor, and payroll management
- Expense tracking, reporting, and approval workflows
- Role-based access control and secure authentication
- Real-time operational reports for management decision-making

E-Learning Management System (LMS)

A web-based learning platform for managing courses, students, exams, and results.

Role: Full-Stack Laravel Developer

Technologies: Laravel, MySQL, RESTful APIs, JavaScript, AJAX

Key Features:

- Course, lesson, and content management (full classroom management)
- Student enrollment and progress tracking
- Online exams, quizzes, and result processing
- User roles (Admin, Instructor, Student)
- Secure authentication and performance optimization

Restaurant Management System

A complete restaurant operation system covering sales, orders, and inventory.

Role: Full-Stack Laravel Developer

Technologies: Laravel, MySQL, JavaScript, AJAX

Key Features:

- Order management and billing system
- Inventory and stock control
- Daily sales and profit reports
- Role-based staff access (Admin, Cashier, Manager)
- System maintenance and performance improvements

E-Commerce Management System

A scalable e-commerce platform for managing products, orders, and customers.

Role: Full-Stack Laravel Developer

Technologies: Laravel, MySQL, RESTful APIs

Key Features:

- Product, category, and order management
- Customer management and order tracking
- Payment workflow integration (logical structure)
- Admin dashboard with reports and analytics
- Secure backend operations and bug fixing

Hospital & Store Management Systems

Multiple management systems built for operational efficiency.

Role: Full-Stack Laravel Developer

Technologies: Laravel, MySQL, RESTful APIs

Key Features:

- Patient / product / inventory management
- Billing, reporting, and record maintenance
- Role-based access control
- Performance optimization and maintenance support

Personal Attributes

- Strong problem-solving and analytical skills
- Responsible, disciplined, and deadline-oriented
- Team player with good communication skills
- Eager to learn new technologies and best practices

Availability

- **Open to full-time work**
- **Flexible working hours as per operational requirements**

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge.
